Cambridge Science Festival

Curiosity drives us to learn more, but what happens when the sign on the door says "No girls allowed"? Much like skateboarding, science doesn't always feel like a place we are welcomed, let's change that! CSF aims to make science "accessible, interactive & fun" The festival will be held all over Cambridge (check girlsskateday.com for updates on our location)

/date

• Come learn abt neuroscience + yr brain i.e. can skating shape the way you think?
